1 August 2018

Our Ref: E1/18

**Greener Jobs Alliance (GJA) Newsletter July-August 2018:**

**To: All Branches**

Dear Colleagues,

The Greener Jobs Alliance was launched to promote skills training and job creation to meet the needs of Britain's rapidly growing low carbon sectors and to green the whole economy.

The transition to a low carbon and resource efficient economy can drive sustainable economic recovery and job creation in every part of the country as well as making existing jobs more secure. But this requires a more strategic national and local approach to deliver the workforce skills needed and to stimulate demand for clean energy and energy efficiency services.

The Greener Jobs Alliance liaises at a national and local level to build the broadest possible support for the policies, investment, partnerships and commitments needed to drive the transition to a low carbon economy.

The Greener Jobs Alliance liaises with training bodies, colleges, universities, employers, local and national government, trade unions, housing associations, campaign and community groups – to build the policies, investment and partnerships needed to drive the transition to a low carbon economy.

The GJA runs a number of 'free' courses on the environment for Trade Union Reps in different parts of the UK which have been attended by a number of CWU Reps.

The GJA came into existence as a result of funding from Battersea and Wandsworth TUC.

See attached July-August GJA Newsletter.

Yours sincerely

**Dave Joyce**  
**National Health, Safety & Environment Officer**
