Tax Credits for Paid Leave

[IRS Notice IR-2020-57](#)

[IRS Coronavirus Tax Relief Resources](#)

Tax Credits For Paid Sick And Paid Family And Medical Leave:

Provides a refundable tax credit equal to 100 percent of qualified paid sick leave wages paid by an employer for each calendar quarter. The tax credit is allowed against the tax imposed by section 3111(a) (the employer portion of Social Security taxes). Qualified sick leave wages are wages required to be paid by the Emergency Paid Sick Leave Act.

Makes a distinction between qualified sick leave wages paid with respect to employees who must self-isolate, obtain a diagnosis, or comply with a self-isolation recommendation with respect to coronavirus. For amounts paid to those employees, the amount of qualified sick leave wages taken into account for each employee is capped at \$511 per day.

For amounts paid to employees caring for a family member or for a child whose school or place of care has been closed, the amount of qualified sick leave wages taken into account for each employee is capped at \$200 per day. The aggregate number of days taken into account per employee may not exceed the excess of 10 over the aggregate number of days taken into account for all preceding calendar quarters.

If the credit exceeds the employer's total liability under section 3111(a) for all employees for any calendar quarter, the excess credit is refundable to the employer. Employers may elect to not have the credit apply. To prevent a double benefit, no deduction is allowed for the amount of the credit. In addition, no credit is allowed with respect to wages for which a credit is allowed under section 45S.

The section applies only to wages paid with respect to the period beginning on a date selected by the Secretary of the Treasury (or the Secretary's delegate) which is during the 15-day period beginning on the date of the enactment of this Act, and ending on December 31, 2020.

Credit for Sick Leave for Certain Self-Employed Individuals:

Provides a refundable tax credit equal to 100 percent of a qualified sick leave equivalent amount for eligible self-employed individuals who must self-isolate, obtain a diagnosis, or comply with a self-isolation recommendation with respect to coronavirus. For eligible self-employed individuals caring for a family member or for a child whose school or place of care has been closed due to coronavirus, provides a refundable tax credit equal to 67 percent of a qualified sick leave equivalent amount.

The credit is allowed against income taxes and is refundable. Eligible self-employed individuals are individuals who would be entitled to receive paid leave pursuant to the Emergency Paid Sick Leave Act if the individual was an employee of an employer (other than himself or herself). For eligible self-employed individuals who must self-isolate, obtain a diagnosis, or comply with a self-isolation recommendation, the qualified sick leave equivalent amount is capped at the lesser of \$511 per day or the average daily self-employment income for the taxable year per day. For eligible self-employed individuals caring for a family member or for a child whose school or place of care has been closed due to coronavirus, the qualified sick leave equivalent amount is capped at the lesser of \$200 per day or the average daily self-employment income for the taxable year per day.

In calculating the qualified sick leave equivalent amount, an eligible self-employed individual may only take into account the days that the individual is unable to work for reasons that would entitle the individual to receive paid leave pursuant to the Emergency Paid Sick Leave Act.

A self-employed individual must maintain documentation prescribed by the Secretary of the Treasury to establish his or her eligibility for the credit. To prevent a double benefit, the qualified sick leave equivalent amount is proportionately reduced for any days that the individual also receives qualified sick leave wages from an employer. The section contains rules to ensure that self-employed individuals in U.S. territories may claim the credit.

Payroll Credit for Required Paid Family Leave:

Provides a refundable tax credit equal to 100% of qualified family leave wages paid by an employer for each calendar quarter.

The tax credit is allowed against the tax imposed by section 3111(a) (the employer portion of Social Security taxes). Qualified family leave wages are wages required to be paid by the Emergency Family and Medical Leave Expansion Act.

The amount of qualified family leave wages taken into account for each employee is capped at \$200 per day and \$10,000 for all calendar quarters. If the credit exceeds the employer's total liability under section 3111(a) for all employees for any calendar quarter, the excess credit is refundable to the employer.

Employers may elect to not have the credit apply. To prevent a double benefit, no deduction is allowed for the amount of the credit. In addition, no credit is allowed with respect to wages for which a credit is allowed under section 45S.

Credit for Family Leave for Certain Self-Employed Individuals:

Provides a refundable tax credit equal to 100 percent of a qualified family leave equivalent amount for eligible self-employed individuals.

The credit is allowed against income taxes and is refundable. Eligible self-employed individuals are individuals who would be entitled to receive paid leave pursuant to the Emergency Family and Medical Leave Expansion Act if the individual was an employee of an employer (other than himself or herself). The qualified family leave equivalent amount is capped at the lesser \$200 per day or the average daily self-employment income for the taxable year per day. In calculating the qualified family leave equivalent amount, an eligible self-employed individual may only take into account those days that the individual is unable to work for reasons that would entitle the individual to receive paid leave pursuant to the Emergency Family and Medical Leave Expansion Act.

A self-employed individual must maintain documentation prescribed by the Secretary of the Treasury to establish his or her eligibility for the credit. To prevent a double benefit, the qualified sick leave equivalent amount is proportionately reduced for any days that the individual also receives qualified sick leave wages from an employer.
