OKLAHOMA STATE UNIVERSITY SCHOOL OF ARCHITECTURE

ARCHITECTURAL ENGINEERING FACULTY SEARCH

ARCHITECTURAL ENGINEERING, TWO TENURE-TRACK ASSISTANT PROFESSORS

Oklahoma State University School of Architecture is accepting applications to fill two tenure-track faculty positions at the Assistant Professor level in Architectural Engineering. The successful candidates will have a primary focus in building structures, environmental control topics, or architectural construction management. One of the two positions will teach engineering core courses (Statics or Strengths). Teaching in architectural design studios is also an expectation of these positions. The positions are primarily focused upon teaching, however all faculty are expected to develop a creative and scholarly agenda that contributes to the mission and goals of the school, college, and university.
About the OSU School of Architecture

The programs in the School of Architecture are ABET and NAAB accredited and depend on a dedicated faculty of 18 professors working as a close-knit team and serving a student body of 350. For 113 years, the program has been professionally educating architects and architectural engineers, combining a strong design and problem-solving curriculum with an emphasis on technology and building systems integration. The School's state-of-the-art facilities support faculty and students in their educational endeavors and scholarly pursuits. The School of Architecture fosters a collegial atmosphere among the faculty, most notably through team-taught design studios. Collaborative and multi-disciplinary research and scholarship are valued and embraced through the School's integration of accredited undergraduate programs in architecture and architectural engineering as well as its role in the College of Engineering, Architecture and Technology.

Contact: Professor S. Bilbeisi, the Head of the School of Architecture, *suzanne.bilbeisi@okstate.edu.*

Candidate Credentials

Preference will be given to candidates who have a Master of Architectural Engineering or equivalent advanced engineering degree with a professional license (PE or SE) and significant practice experience, or experienced candidates with a Ph.D.

Candidates must be able to teach introductory and advanced level structural engineering courses or environmental control topics and core engineering courses, instruct students in professional design projects, and contribute to fundamental architectural design studios.

Required Application Materials

Interested applicants will apply online at: https://jobs. okstate.edu
and provide the following via electronic PDF files:

- Cover Letter
- Curriculum Vitae
- Statement of Teaching Philosophy (1 page)
- Statement of Scholarship Interests (1 page)
- 3 references, with contact information
- Examples of professional work and/or examples of academic instruction/scholarly work

Timeline

Screening of applicants will begin November 1, 2022 and will continue until the positions are filled, pending availability of funding. The successful candidates will join the faculty January 2 or August 1, 2023. Please submit questions to the Chair of the Search, Professor John Phillips at *john.j.phillips@okstate.edu.*
