Conference Announcement and Registration Information

Dear colleagues,

We are pleased to announce the 2021 Conference of the Small-Scale Forestry Research group (3.08). We are looking forward to a conference with about 40 high-quality presentations and some interesting special topics and social interactions. A preliminary list of the papers submitted is enclosed.

You are now invited to register for this event, taking place from 2021-02-09 until 2021-02-11.

Registration

Registration is quite easy: Please send an e-mail to:

small-scale-forestry-2021@forst.bwl.de

Your email should include:

E-mail subject: 'Registration Virtual SSF Conference 2021'

- **Name:** (first name. last name)
- **Institution:**
- **Country:**
- **E-Mail address:**
- **Telephone number:**

Our aim is to enable the participation of all who are interested in small-scale forestry-research. Therefore we decided to offer this conference free of charge. One consequence related to this is that we are not employing a professional conference organizer. As a result, the number of participants could be limited and could vary due to technical constraints. We will consider your registration on a "first-come, first-served" basis.

After your registration e-mail you will receive a confirmation within a day or two. The final agenda and the required access codes will be provided between February 3rd and 5th.

The time frame for the sessions varies depending on the time zone you are living in.

Below you can find some examples of when the conference will start:

Japan Standard Time (JST/UTC+9): 19:00 h local time

Central Europe (MEZ/UTC+1); Western Africa (WAT/UTC+1): 11:00 h local time

Eastern Standard Time (EST UTC -5): 05:00 h local time

Pacific Standard Time (PST): 02:00 h local time

Access to the virtual conference room will be enabled about half an hour prior to each session.

Questions and further Information

Please contact us via the conference e-mail address:

small-scale-forestry-2021@forst.bwl.de

We are looking forward seeing you in February.
