Methodology

On behalf of Univision Communications Inc., Latino Decisions conducted a poll of California Latino registered voters. The poll was overseen by Univision polling director Dr. Sergio Garcia-Rios. Overall, 808 Latino registered voters were interviewed from combination of landline, cell phone, and online completion modes across California. All voters were randomly selected and given the opportunity to complete the interview in English or Spanish, at their discretion. Randomized stratified sampling was employed to ensure the appropriate balance of Latinos across state, gender, age, education, and nativity. Post-stratification weights were applied to bring the sample into alignment with the Census CPS estimates of Latinos in California. Overall 31% of interviews were in Spanish and 69% in English. The final California survey contains an overall design error of +/- 3.5%. The survey was in the field February 21-28, 2020.
