Good afternoon, Leila Said, 3/30/2022

INTRODUCTION

2022-2023 Summer

Welcome

Information

MCPS is planning a range of summer programs for elementary, middle, and high school students in summer 2022. Generally, in-person programs will take place in the morning through lunchtime. Afternoon programs sponsored by the county and municipal agencies and outside providers will be available in selected schools.

The goal of the summer programs is to mitigate learning disruption and continue to engage students in academic, specials and electives, and social-emotional support, while also narrowing the focus to students with the greatest need to accelerate their learning.

Key features of the tentative program design include:

- In-person local school programs offered by elementary, middle, and high schools. To maximize resources and available staffing, students with the greatest need may be prioritized first for programs at their local schools. Summer Curriculum is designed to REPEAT the major work of the previous grade for students who were unsuccessful in learning this material.
- A focused program for newcomer English Learners/Emergent Multilingual Learners.
- Online tutoring with external providers available to all students, on flexible schedules, and available 24/7.
- No cost for students, with transportation and meals provided.

Throughout the Local Programs process, you will be presented with a variety of information to enter. Many steps will have required fields marked by an asterisk (*). You must enter information into these fields before you will be allowed to continue.
