THE LATEST NUMBERS: NEW TARIFFS HITTING FLORIDA ECONOMY HARD

- According to the most recent data, Florida businesses have paid an extra \$1.5 billion in import taxes on products subject to Trump Administration tariffs, including \$113 million in December.
- Tariffs on China “List 1-3” goods accounted for \$1.1 billion of the new taxes paid to date. The Phase One deal did not remove or reduce any of those tariffs. Florida imported \$2.6 billion of “List 4A” products in 2019, which will continue to face an extra 7.5 percent tariff despite the Phase One deal.
- Since the trade war began, Florida exports have faced \$326 million in new retaliatory tariffs from our trading partners, including \$15 million in December. These tariffs make Florida exports less competitive.

President Trump should successfully negotiate with our trading partners and end these costly and harmful tariffs. Florida jobs are on the line.
