Washington WIC Medical Documentation Form - Infants (Birth to 12 months)

WIC is a supplemental food and nutrition program. WIC doesn't provide all the formula or foods an infant needs each month. Due to federal regulations, we are only able to offer formula from companies that sign a formula rebate contract. Washington WIC currently provides Similac Advance, Similac Soy Isomil, Similac Sensitive, and Similac Total Comfort as the standard formulas.

INSTRUCTIONS:

Participant Information: Print first and last name, date of birth, and name of caregiver.

1. Check a qualifying diagnosis

- 2. Some formulas require a qualifying medical diagnosis. Please make sure to check that box. Prescribe therapeutic formula that requires a qualifying medical diagnosis.**

Check requested therapeutic formula. You are allowed to mark multiple formulas if there is a formula shortage. If additional notes are needed, attach a separate page and check "additional notes are attached" to indicate any special needs (i.e. concentrating formula to increase calories or ready-to-feed).

- A. If a 6 -12 month old infant is on Similac Advance, Similac Soy Isomil, Similac Sensitive, or Similac Total Comfort, can't tolerate infant foods **and** needs additional formula, check the formula the infant needs. Complete Box 4 to tell WIC staff to issue only formula to the infant.
- B. Check either: "Allow up to the maximum amount of formula" or indicate the number of ounces per day if the amount is less than WIC provides. Check the table below for the maximum amount of formula allowed per month as defined by federal regulations.

Infant formula type	Birth - 3 months	4 - 5 months	6 - 12 months	6 - 12 months when foods not allowed
Powder (reconstituted)	Up to 870 fl. oz.	Up to 960 fl. oz.	Up to 696 fl. oz.	Up to 960 fl. oz.
Concentrate (reconstituted)	Up to 823 fl. oz.	Up to 896 fl. oz.	Up to 630 fl. oz.	Up to 896 fl. oz.
Ready-to-feed	Up to 832 fl. oz.	Up to 913 fl. oz.	Up to 643 fl. oz.	Up to 913 fl. oz.
Infant foods				
Infant cereal	None	None	24 oz.	None – foods not provided due to medical diagnosis
Baby food fruits and vegetables	None	None	128 oz.	None – foods not provided due to medical diagnosis

3. Length of time

Check the number months or write in a time frame not to exceed 12 months of age.

4. WIC supplemental foods

- A. Check "WIC dietitian" if you prefer the WIC dietitian to work with the caregiver to assign infant foods and determine how long the infant should receive these foods from WIC.
- B. Check what foods the infant can't tolerate for medical reasons. WIC staff will instruct the caregiver how to choose foods following your directive.
- C. Check formula only if the infant can't tolerate any infant foods or must delay introduction of foods because of a medical diagnosis. A medical diagnosis is required if more formula is to be provided in lieu of foods.
- D. If this section is left blank, WIC will provide supplemental foods.

5. Healthcare provider information

- A. Print name of medical provider, sign, and date the form.
- B. A signature or stamp is required along with phone number and date. A fax number is recommended.

6. Release of Information Form

This voluntary authorization allows WIC staff to share information to the healthcare provider.

7. Additional information

- WIC staff may call the healthcare provider's office if there's missing information or to clarify the request.
- If this form is incomplete, WIC Staff can only issue formula for one month.
- The healthcare provider's office may fax the completed form to the WIC clinic if the fax number is on the bottom of the front page or the participant's caregiver may return the form to the WIC clinic.
- **If mother returns to Fully Breastfeeding, WIC staff will discontinue formula.**
