Future Vote Initiative

Welcome Future Vote Ambassador,

Please read the following instructions carefully. You will need to provide information which will help us identify local precincts according to your home address and shift availability. Please keep in mind, registration is processed on a first come, first serve basis and is completely confidential. Information collected during the application process will be used for statistical purposes only. If you are unable to select a neighboring precinct, you have the option of placing the student on "Standby" or in a neighboring voting district.

Please keep in mind, training is mandatory for all students and guardians. Non registered students will be turned away at training and/or at the polls. U.S. citizenship is not a pre-requisite to participate and Student Service Learning (SSL) credits will be awarded after the current election has been certified. Additional details will be provided at training and available on the Future Vote homepage. So let's get started!

Attention Guardians: Registration is considered incomplete until a training date and precinct location have been selected and confirmed at the end of the registration process.

A green arrow points to the "Confirm" button.

- 7) Provide guardian information (name, address, contact numbers, etc.). If the election worker interest box is checked, information will be emailed to the guardian. Select “Save” to continue.

Depending on the number of days served, volunteers may choose to earn up to 25 Student Service Learning (SSL) hours or up to \$250 stipend for their service along with a great hands-on introduction to the democratic process. Individuals must be U.S. Citizens, at least 16 years old, and registered to vote in Maryland.

At the bottom of the dialog, there are two buttons: "Continue with Future Vote Application" (highlighted with a green box and a green arrow pointing to it) and "Serve as a Student Election Worker".

The background form shows the "Personal Data" section with "TEST" entered in the Last Name and First Name fields, and "01/01/2006" in the Date Of Birth field.
