

Senator Jeanne Shaheen - FY2023 Congressionally Directed Spending Requests

Name & Contact Info	Mailing Address	Permanent Address
John Doe Mobile: 555-555-5555 john_doe@anytown.gov	1234 Main St. Anytown NH 03333	1234 Main St. Anytown NH 03333

indicates a required field.

Section 1. Project Information

1. Project Title:

Anytown Public Safety Radio Infrastructure Project

2. Requesting Entity (City, County, Organization Name, Agency/Department/Office):

Anytown, NH

3. Location of the Requesting Entity (include Address, City, and County):

1234 Main Street, Anytown, Merrimack County

4. New Hampshire Community or Communities Benefitted by the Request (City/Cities/County/Counties):

Anytown, NH

5. Does the Requesting Entity Have a New Hampshire Point of Contact?

Please include name, address, phone number and email address below.

Yes

5.1 Name:

John Doe

5.1 Address:

1234 Main Street

5.1 City:

Anytown

5.1 Zipcode:

03333

5.1 County:

Merrimack County

5.1 Business Phone:

555-555-5555

5.1 Cell Phone:

555-555-5555

5.1 Email:

john_doe@anytown.gov

6. Is the Head of the Requesting Entity Different the New Hampshire Point of Contact?

If 'Yes,' please provide information below.

Yes

6.1 Title (e.g. Mayor, Director, President, CEO):

Town Administrator

6.1 Name:

Jane Doe

6.1 Address:

1234 Main Street, Anytown, NH

6.1 Zipcode:

03333

6.1 County:

Merrimack County

6.1 Business Phone:

555-555-5555

6.1 Cell Phone:

555-555-5555

6.1 Email:

jane_doe@anytown.gov

7. Prior Federal Funding:

Please list the last five federal funding awards that the requesting entity has received and when these funds were awarded. Please only list awards that have been made to the specific requesting entity as opposed to any parent organization (i.e. 'Program Office X' as opposed to 'Y Foundation').

IF AT ANY POINT THE REQUESTING ENTITY HAS FAILED TO ADEQUATELY MANAGE OR EXECUTRE A PRIOR FEDERAL FUNDING AWARD, PLEASE INDICATE BELOW.

Hazard Mitigation Grant- Main Street Culvert Projects, 2018, \$52,119.31; COPS Hiring Program 2014/2015, \$115,000; EPA Brownfields Assessment & Cleanup, 2010/2013, \$198,316.41.

8. Problem/Issue Statement:

Use up to 250 words to describe the problem or issue to be addressed through this request. Be as detailed as possible, and explain why the problem or issue cannot be addressed without a federal application.

Anytown's existing public safety and emergency services land mobile radio (LMR) communications equipment infrastructure is being operated beyond the manufacturer's end of life period, making it obsolete and unserviceable. The Town's critical radio communication infrastructure which supports law enforcement, EMS, fire department, and emergency management requires replacement. The Town is challenged by many factors including: varied topography, adjacency to a large body of water, and a complex built urban environment on the Anytown University campus which often hosts large state and regional events. These factors have contributed to situations where the conventional radio communication system has failed to provide reliable service coverage for emergency responders. In addition to being antiquated, the current communication technology is no longer meeting the needs of the community. Durham is susceptible to P25 APCO errors, which cannot be resolved without employing a newer generation of radio equipment technology to provide an Internet Protocol (IP) interface. Anytown requires a radio communication infrastructure rebuild utilizing modern technology to construct a more robust communications system to serve the public safety agencies which protect the community.

9. Request Description, Purpose, and Activities to be Funded:

Use up to 250 words to describe the services and products that will be provided and the reasons for your request. This question is aimed at understanding the reason for your request. Positive community impacts should be included in response to Question 12 below.

Anytown and Merrimack County government are collaborating with Radio Supplier Inc. with the understanding that Anytown and Merrimack County are determined to build a communications system that their users can trust, and firmly believe that Radio Supplier Inc. will accomplish that. The estimated project cost is \$808,893 and can be started immediately and constructed over a twelve to eighteen month period. The Town has invested in project engineering and a vendor has prepared contract documents. The project is shovel-ready pending funding.

10. Project Goals and Results:

Please describe measurable goals and expected results, and describe how the request will be evaluated and performance tracked.

The measurable goals and expected results of this project will be demonstrated by the successful construction, deployment, and implementation of a modern radio communications network and system, including equipment, hardware, and software, which will allow the Town to seamlessly communicate with public safety partners while often under challenging conditions to address all hazards. Performance will be tracked by acknowledging completion of the project.

11. Economic/Community Impact:

Briefly describe the economic and/or community impact of this effort. For many requests, the economic impact can be expressed in terms of the total number of jobs created and/or maintained directly and indirectly, or investment stimulated. For these, please list the type of jobs and where those jobs are located. Other requests will yield community impacts other than job creation or maintenance. For these, please provide specific and detailed descriptions of community impact.

This communication system overhaul investment will directly impact the local community and Merrimack County by increasing the reliability and performance of the emergency radio communications system for first responders in surrounding communities where Anytown public safety assets provide mutual aid and assistance regularly. The positive economic impact to the region will be maximized by utilizing local vendors for the equipment purchase and installation. Investing in critical communications infrastructure benefits the Town, University, and surrounding communities by ensuring a resilient first responder communication network, ensuring that radio communications will be fully functional both for daily operations and when required to be scaled up to address a significant emergency incident.

12. Additional Sources of Funding:

Please list all additional sources of funding for this request and the amounts, if applicable. This includes both private and public sources.

Other than independent Town funding totaling \$50,000, Anytown has not identified additional public or private sources of funding at this time.

13. Project Estimated Start Date:

09/01/2022

14. Will you be submitting multiple requests for congressionally directed spending?

Yes

14.1 If 'yes,' please indicate priority of this project below. (Example: 'Top project' or '2 of 3 projects')

Top project

15. Have You Submitted this Request to Other Members of the New Hampshire Delegation?

Yes

15.1 Members:

If 'Yes,' please list the member(s) below.

Representative Kuster and Representative Pappas

Section 2. Funding Information

APPROPRIATIONS COMMITTEE INFORMATION:

1. Appropriations Subcommittee of Jurisdiction:

Commerce, Justice, and Science

Is your funding request within the following subcommittee?

2. Commerce, Justice, and Science

Yes

3.1 Please indicate the eligible account:

Department of Justice; Community Oriented Policing Services (COPS); COPS Law Enforcement Technology

PROJECT COSTS:

8. Amount Requested:

Dollar Amount

758893

9. Minimum Funds Needed to Initiate Project:

Dollar Amount

758893

10. Total Project Cost:

Dollar Amount

808893

11. Is the 'Amount Requested' different from the 'Total Project Cost?'

Yes

11.1 If 'yes,' please explain why below.

The Town is prepared to contribute \$50,000 in funding derived from the Anytown General Fund to meet total project costs.

Cost Breakdown:

Please indicate the Amount and Status of Phase (i.e. Not Yet Begun, In Process, or Completed) for the project phases/ areas below:

12. Acquisition:

No answer.

13. Soft Costs, Design, Permitting/Planning:

The Town has invested \$17,800 in project engineering and a vendor has prepared contract documents.

14. Construction/Renovation:

No answer.

15. Site Work:

No answer.

16. Equipment:

No answer.

17. Other:

(Please elaborate)

No answer.

PROJECT FUNDING:

Please indicate the Amount and Status of Funding (i.e. Application Submitted, Funding Awarded, or Funding Received) for the funding sources below:

18.Federal Funding (eg: EPA Brownfields Funding, HOME funding, federal tax credits, etc.):

N/A

19.Local or State Government Funding (eg: bond votes, tax credits, funding from NH State Agency, etc.):

Anytown is able to contribute \$50,000 in additional funding from the Anytown General Fund to meet total project costs.

20.Private or Nonprofit Funding (e.g. NH Charitable Foundation, United Way, individual donations, etc.):

N/A

21.Project Income (If the project requires income for sustainability, the project be sustained through fees, ratepayers, etc.):

N/A

22.Other Sources:

Please elaborate below.

N/A
