

Orlando Corporation Makes Record-breaking \$75 Million Gift to Trillium Health Partners

The largest corporate donation to a hospital in Canada will double the impact of community donations to help build the largest hospital in Canada and create a new kind of health care

Mississauga, ON – March 1, 2023 – Trillium Health Partners (THP) and Trillium Health Partners Foundation are thrilled to announce a monumental \$75 million donation from Mississauga-based Orlando Corporation. As a leader in corporate philanthropy, Orlando Corporation hopes to inspire others to give by matching every dollar donated to THP to double the impact of their donation up to \$150 million.

“At Orlando, our employees are at the centre of who we are. We are making this historic donation to Trillium Health Partners in honour of our staff and their families, and for the benefit of all the families across our entire community,” said Orlando Corporation President Blair Wolk. “We are delighted to support the hospital’s growth and to invest in leading research to create a more efficient and accessible health system, including mental health care. That way all families across the West GTA can access the care they need to thrive.”

Over the next 20 years, THP will face more demand for services than any other hospital in the province, including in the area of mental health. To help meet these needs, the donation includes:

- \$50 million to help build the future home of The Peter Gilgan Mississauga Hospital, which will become the largest hospital in Canada on completion with over 950 beds and serve more patients than any other hospital in the country.
- \$10 million will help construct and equip a much needed two-floor Mental Health Inpatient Unit within the new hospital.
- \$15 million will support THP’s Institute for Better Health to drive research and innovation to create a new kind of health care for a healthier community.

“Orlando Corporation’s extraordinary matching gift, the largest ever, promises to encourage the spirit of giving across our entire community to create a new kind of health care in the West GTA,” said Caroline Riseboro, President and CEO, THP Foundation. “This inspiring gift will double the impact of all donations from the community, magnifying their support to allow the hospital to accomplish even more.

“Trillium Health Partners is uniquely positioned to create a new kind of health care by virtue of our size, the diversity of the community we serve and our ongoing commitment to system change, driven by our clinicians, staff and scientists, and supported by our committed Foundation team,” said Karli Farrow, President and CEO, THP. “Thanks to this most generous gift by Orlando Corporation, we will gain new and expanded hospital capacity, including for inpatient mental health care, and be leaders in health system innovation to ensure no one gets left behind.”

The Peter Gilgan Mississauga Hospital is now in the advanced planning stages, with early development underway including the new hospital parking lot. To make a gift with double the impact, visit trilliumgiving.ca.
