

# Agenda

## Project Overview

- Reid St. 200 to 400 Block
- Barlow Ave. west of Reid St.

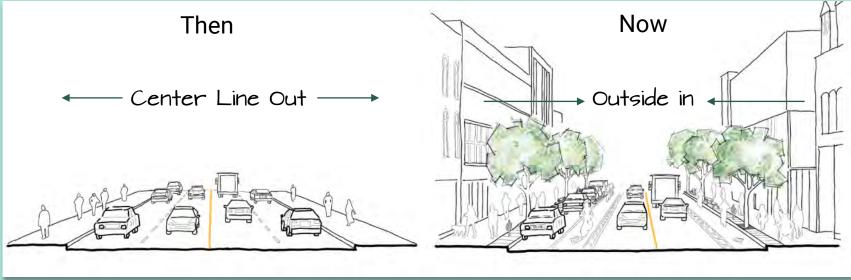

- Replace watermain
- Address grading & drainage issues
- Retain Spirit Square

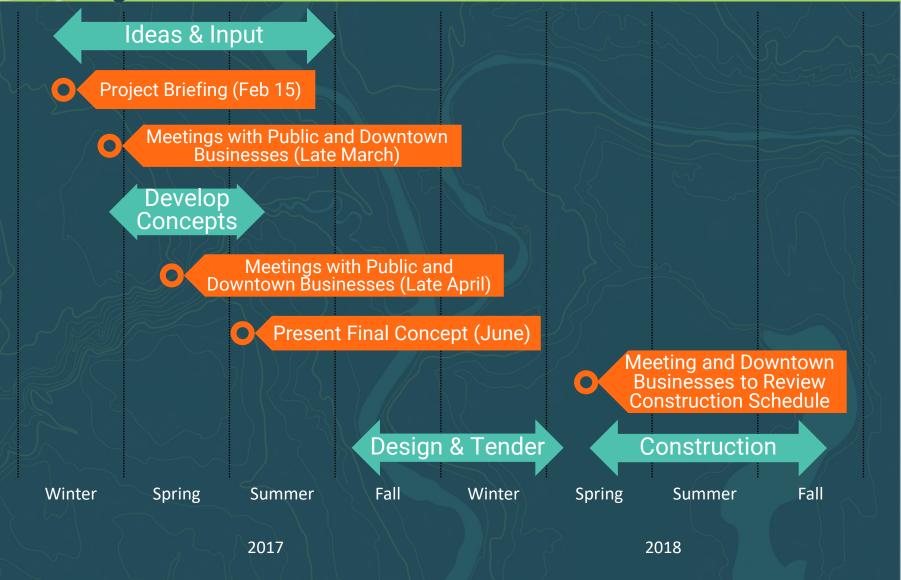

# Making a Complete Street

"Complete Streets" are streets that are designed to provide safe and comfortable access for people of all ages, gender, abilities, and modes of travel-including pedestrians, cyclists, transit users and motorists (Complete Streets for Canada).

Auto-Mobility Auto Safety Multi-modal Mobility + Access
Public Health and Safety
Economic Development
Environmental Quality
Livability/Quality of Life
Equity

### **Project Schedule**

# Site Layout

### Materials Palette – Modern Natural

Accessible Durable Attractive Functional

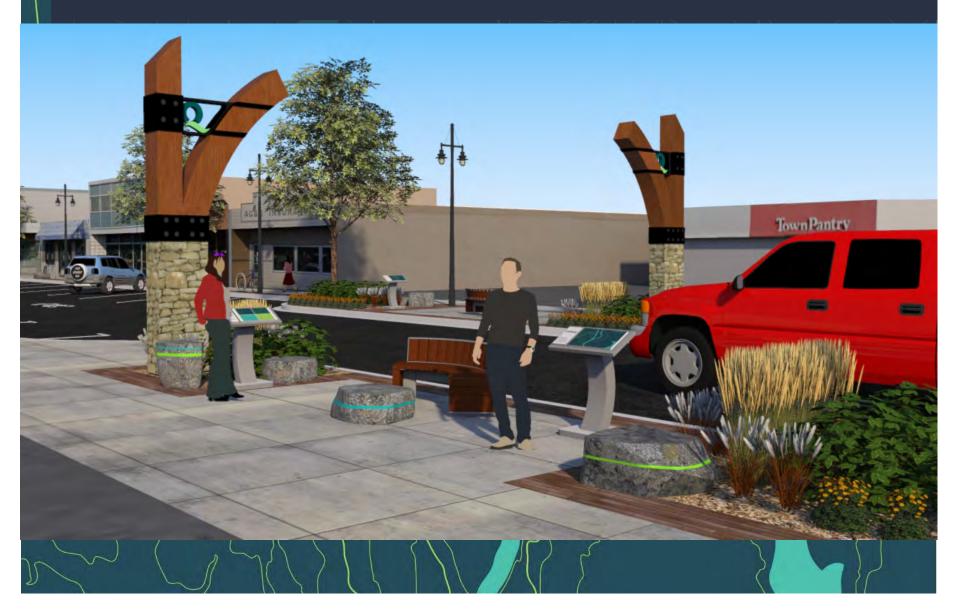

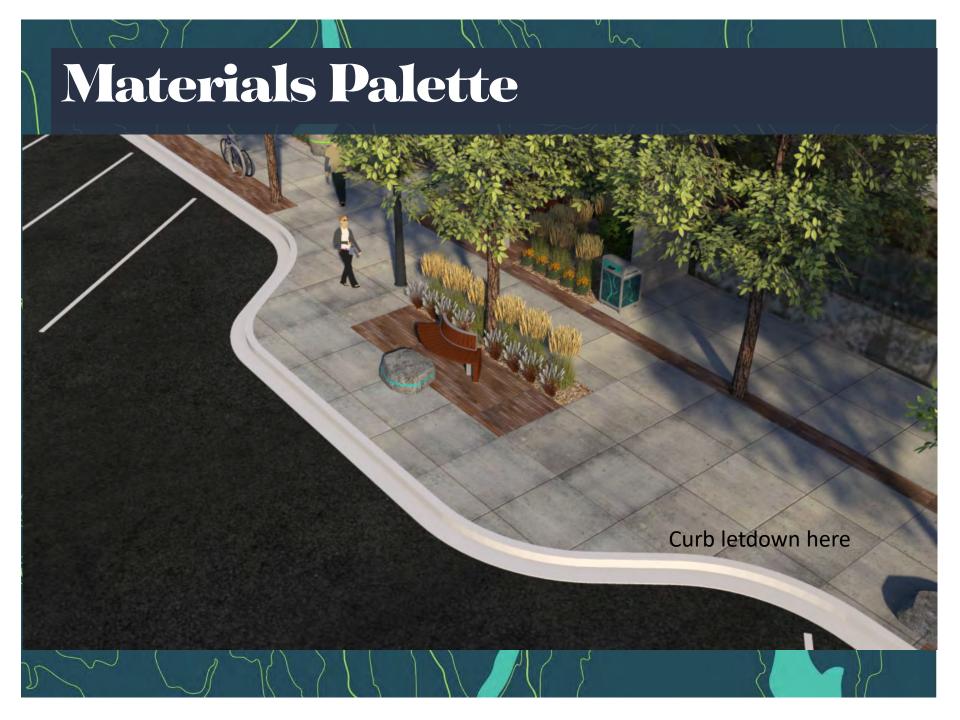

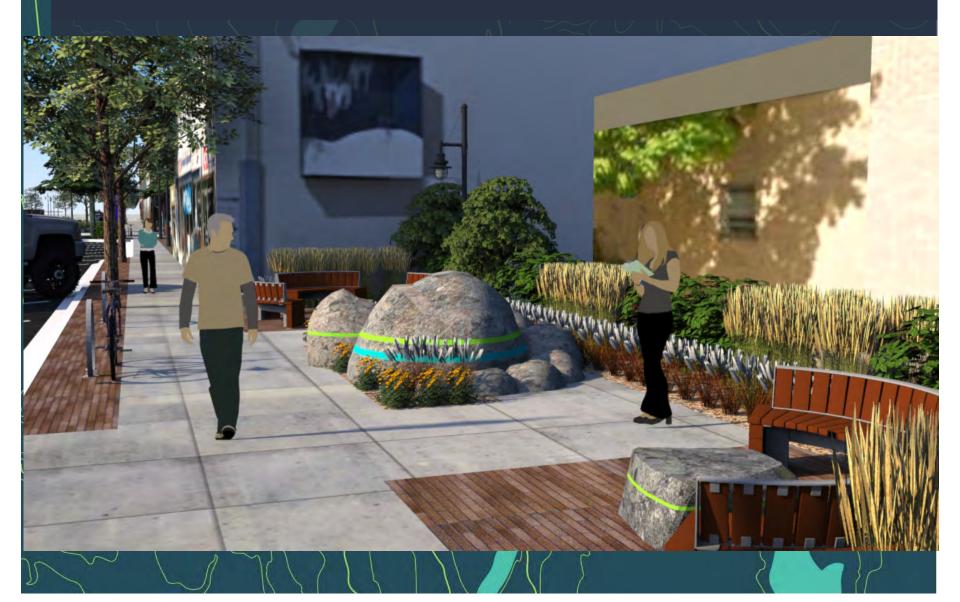

Capital Cost Current design and materials palette results in an estimated cost of \$6.533 million

Scope can be scaled back to lower the estimate

Opportunities to reduce scope include:

- Trees at intersections and mid-block only
- Simpler/fewer furnishings and features
- Gateway feature at Reid St./Carson Ave. intersection only
- Eliminate improvements to North side of Shepherd (\$293,000)

## **Tendering**

Prequalification of contracts (can happen next week)

Intend to provide tender package to prequalified contractors in mid-February

Expect to award the contract before typical construction season starts

Currently working on key construction staging and timing considerations
